

Bridal makeup trial *2018-2019*

Here are a few information about the bridal makeup trial that will allow us to be on the same wave length for our first appointment.

+The duration of our appointment will last around 2 hours. This meeting allows me to:

- 1- Evaluate the type of makeup you are looking for (natural, glamour, night time look, etc.).
- 2- Find your skin type (dry, normal, combination or oily) its condition (deshydrated, irritated, rosacea, etc.) to adapt the makeup accordingly to your skin situation.
- 3- Perform a full-face makeup so you can have a clear idea of what you will look like on your wedding day. A picture of you will be taken and added to your bridal folder.
- 4- Write a face chart with all the intricate details of your wedding makeup look.
- 5- Establish a schedule of the beauty preparation for your big day.

+On the day of the trial, please have with you or in picture:

- Veil
- Hair accessories
- Wedding dress
- The jewels you will be wearing
- Inspirational pictures of makeup that you like

+My tip: Wearing a white top for this appointment is ideal, because this color is the same as your wedding dress! Your makeup will appear slightly different over other colors.
